INTERNATIONAL

Every person bears the image of God (Gen 1:26-28). This divine reality establishes the cornerstone for all Catholic teaching, including the Church's understanding and approach to human sexuality.

Begotten Not Made is a special pre-conference seminar exploring the Catholic understanding of human sexuality, conjugal love and the transmission of human life, and how that understanding helps us navigate some of the most challenging questions facing individuals, couples and families today.

Our speakers will consider questions surrounding chastity, contraception, infertility, IVF, surrogacy and other interventions, looking not only at what the Church teaches, but most importantly **why**.

Refreshments served. Bring your own dinner.
